

UTAH'S SWEET SINGERS FIRST ON THE PROGRAM AT NATIONAL IRRIGATION CONGRESS.

FIRST DAY'S PROCEEDINGS

SACRAMENTO GAY WITH FLAGS AND BUNTING.

Sacramento, Sept. 2.—Marked by a large attendance and much enthusiasm, the fifteenth National Irrigation congress opened here this afternoon, under most auspicious circumstances.

Beautiful weather prevailed, and the city presented a gay appearance with its elaborate decorations and throngs of holiday sightseers. The opening session was announced for 1:30 o'clock, but delegates began to arrive at the specially constructed irrigation palace during the noon hour and gathered in groups, discussing the congress and the important work that will be done during the week.

The irrigation palace has seating accommodations for about 3,500 people, and in addition to delegates a large number of spectators are provided for.

On the outside, flags and bunting are used with the other members of the Oregon delegation. There are also flags and bunting on the inside of the palace and three territories within the reclamation act.

Gay With Streamers.

The interior of the building presents a festive appearance with streamers of varied hues. Over the speaker's platform are the words:

"Science Bids the Desert Drink."

On the walls in a conspicuous manner, the Washington delegation called attention to the desire of Walla Walla to have the next congress held there.

Governor Chamberlain, president of the National Irrigation congress, accompanied by the other members of the Oregon delegation, arrived early in the morning and was greeted by a salute of seventeen guns. He was entertained at luncheon at the home of William Shaw and was among the early arrivals at the irrigation palace.

Irrigation Ode Rendered.

The congress opened with the "Irrigation Ode," which was rendered by the 20 members of the Oregon tabernacle choir, an organization comprising 120 men and eighty women.

Mayor M. R. Beard of Sacramento then delivered the address of welcome on behalf of the city and was followed by Governor James N. Gifford, who welcomed the delegates to the state. Both officials expressed the pleasure of the people in having the visitors with them and spoke of the importance of the work of the congress.

Governor Chamberlain responded in behalf of the delegates and delivered an enthusiastic reception when he arose to deliver his address.

At the conclusion of Mr. Fairbanks' address, Gifford Pinchot, government forester and personal representative of President Roosevelt, delivered the message of the country's chief executive, which came by telegraph. Following is the message:

Roosevelt's Letter.

"To the Officers and Members of the National Irrigation Congress, Sacramento, Cal.:

"Gentlemen—I send you hearty greetings and my warmest wishes for the success of your convention. I congratulate you on the progress of the great movement you represent. There is no movement more emphatically for the benefit of the small farmer and the small ranchman. There is no other way to assist the actual settler and homestead farmer who owns and tills his own land so powerfully as through this movement of yours for the wise use and preservation of the waters and the forests. The reclamation service and the forest service are directly adapted to help the small man make and maintain a prosperous home, and they are doing it. These services were recently inspected on the ground by the secretary of the interior and the secretary of agriculture, who have them in charge, and congratulate you on the high standards of integrity and efficiency they have attained."

Importance of the Work.

"It is a matter of sincere satisfaction to learn that you will not confine yourselves to questions of irrigation and forestry, but yet to the control, use and conservation of streams, vastly important as these are to every citizen of the United States. I am glad to know that you will give attention also to that problem of which forestry and irrigation and water conservation form but part, the fundamental problem of the conservation of all natural resources. The work of the government along the line of this greater problem cannot be made effective without the approval and support of the whole body of citizens."

"By educating, guiding and crystallizing sentiment in this direction, by bringing the needs of the people clearly and forcibly to the knowledge of their representatives, you are rendering a service of the first importance to the nation as a whole."

(Signed)

"THEODORE ROOSEVELT."

There were also addresses of welcome by Senator George C. Foster, United States senator from California, and Arthur R. Briggs, president of the California state board of trade.

Foreign Delegates.

Among the countries represented at the congress are Germany, Mexico and China. There are five delegations from Mexico, and China has as representative the consul general and other officials from San Francisco.

Appointment of committees marked the close of the proceedings.

Francis Cutler of Riverside, Cal., introduced a resolution, which was unanimously adopted, providing that the secretary of the congress send a telegram to President Roosevelt, thanking him for what he has done for the irrigation matter of irrigation and other important branches which come under the consideration of the congress.

Following the addresses of welcome came the responses of governors and representatives of foreign nations. Governor Albert Mead of Washington extended the thanks of his state for the kind welcome accorded by Governor Gifford and spoke of the great benefits of the work of the congress.

Governor Cutler's Address.

Governor J. C. Cutler of Utah in an address showed his appreciation of the many compliments showered on the members of the Ogden tabernacle choir and expressed the desire that in the near future a session of the irrigation congress will be held within the borders of his state. He dwelt upon the importance of irrigation, reclamation and forestry and made the prediction that within a few years this country would produce enough beet sugar to provide for all the people.

Governor Chamberlain announced that as Chinese Consul General Sun Sze Yee does not speak English fluently, Ow Yong King, the vice consul, would speak for him. Mr. King, who is a Chinese, addressed the congress on the splendid work and declared China to be a pioneer in the work of irrigation. He referred to the fact that his government gave encouragement to men who cultivated the soil and that his people held that there is no more honorable calling than that of the farmer. This latter remark was warmly applauded.

Franz Bopp, the imperial German consul general, spoke as the representative of his country.

The different states represented at the congress were asked to meet and select one delegate for each of the following committees: Credentials, permanent or-

SCHOOL BOUNDARIES

Superintendent D. H. Christensen has announced the boundary lines governing the attendance at the various public schools:

Unless otherwise specified, the boundary line extends along the middle of each street.

Pupils are required to attend the school in the district in which they reside.
